TITLE: National Native Title Tribunal Research Report Bibliographies
Introduction
The Tribunal’s Research Unit prepares bibliographies as a ready reference for anyone wanting to locate readily available, published material about Indigenous Australian people within a particular region or locality. The bibliographies are produced for general library use from reports prepared by the Tribunal for parties to native title mediations. The bibliographies are not exhaustive reference lists about any particular Indigenous group, nor is the published material necessarily an accurate or insightful report of Indigenous society. The Research Unit may update bibliographies from time to time, usually because a new research report has been reproduced for parties to mediation.

It should be noted that the contents and production of these reports are governed by time and resource constraints. They are often prepared in four to eight weeks by a single research officer with some input from a research assistant and Tribunal librarian. Generally most of the references sought for these reports are available only from the AIATSIS library, which in turn has limited resources available to supply material. Therefore care is taken to request only that material which appears relevant to the scope of a particular report.

Disclaimer: The bibliographies are a list of materials that have been used by the Research Unit of the Tribunal to provide background information for native title mediations. The Tribunal forms no view on the accuracy, completeness, or relevance of the reference material cited in these bibliographies. Most of this material is held at libraries and is available to the public. The Tribunal library may be able to assist in locating items.

Ngempa Report
The Ngempa report was prepared by research staff of the National Native Title Tribunal to assist in the mediation of issues arising from the Ngempa native title application (NC97/10) over an area of land in northern New South Wales. The application area covers ‘an area south of the Darling River to Curraweena Hill, east to Mt Druid and west towards East Toorale’. This report was based on publicly and readily available information relevant to the location and post-contact history of the Ngempa people.
