

**Yaegi People #2 Part B – native title determination application
Form 1**

August 2017

Attachment B

Description of the Area covered by the application

NSD168/2011 - Yaegl People #2 – Part B – Sea Claim

The area subject to this application covers all land and waters within the external boundary described below:

External Boundary Description

Commencing at the intersection of the Mean High Water Mark of the South Pacific Ocean and the southern bank of Wooli River and extending generally northerly, generally north westerly and again generally northerly along that Mean High Water Mark, crossing the mouths of any waterways between the seaward extremities of each of the opposite banks of each such waterway to a point on the north eastern boundary of Wooded Bluff (Shark Bay) at Longitude 153.362980° East; then due east to a point on a 200m buffer east from the Mean Low Water Mark; then generally southerly along a 200m buffer east of the Mean Low Water Mark to intersect a northern boundary of a 350m buffer of a line joining the following coordinate points:

| Longitude East | Latitude South |
|----------------|----------------|
| 153.372580 | 29.429538 |
| 153.375933 | 29.429187 |
| 153.377821 | 29.426114 |

Then generally north easterly, generally southerly and generally westerly and generally north westerly along the boundary of that 350m buffer to its intersection with again the 200m buffer east of the Mean Low Water Mark; then again generally southerly along that 200m buffer to Latitude 29.887037° South; then westerly back to the commencement point.

NOTE:

- Application boundary compiled by National Native Title Tribunal based on information or instructions provided by the applicants.
- Application boundary compiled by National Native Title Tribunal based on information or instructions provided by the State.

- Native Title Determination Application NSD6052/1998 - The Yaegl People (NC1996/038) - as accepted for registration 11th December 2006.
- Woolli River and High/Low Water Marks based on DCDB (land base) data sourced from Land and Property Information (NSW) - August 2016.

Reference datum

Geographical coordinates have been provided by the NNTT Geospatial Services and are referenced to the Geocentric Datum of Australia 1994 (GDA94), in decimal degrees and are based on the spatial reference data acquired from the various custodians at the time.

Use of Coordinates

Where coordinates are used within the description to represent cadastral or topographical boundaries or the intersection with such, they are intended as a guide only. As an outcome to the custodians of cadastral and topographic data continuously recalculating the geographic position of their data based on improved survey and data maintenance procedures, it is not possible to accurately define such a position other than by detailed ground survey.

Prepared by Geospatial Services, National Native Title Tribunal (27 March 2017)
