Note

Data Reference and source

- Application boundary data compiled by National Native Title Tribunal.
- Cadastral data sourced from Department of Environment & Resource Management, Qld (March 2011).
- High Water Mark is as defined in the *QLD Land Act 1994*.
- Logan River Catchment boundary derived from The South East Queensland Environmental Values Sub-catchments v2.0 dataset (August 2010). Note – Logan Catchment boundary was used here in consultation with the client to define that part of the application boundary (referred to in reports by Dr Gaynor Macdonald, 2009).
- River and Creeks where available are based on Casement data sourced from Department of the Environment & Resource Management, Qld (May 2011) – *else* Topographic vector data is © Commonwealth of Australia (Geoscience Australia) 2003.

Reference datum

Geographical coordinates have been provided by the NNTT Geospatial Services and are referenced to the Geocentric Datum of Australia 1994 (GDA94), in decimal degrees and are based on the spatial reference data acquired from the various custodians at the time

Use of Coordinates

Where coordinates are used within the description to represent cadastral or topographical boundaries or the intersection with such, they are intended as a guide only. As an outcome to the custodians of cadastral and topographic data continuously recalculating the geographic position of their data based on improved survey and data maintenance procedures, it is not possible to accurately define such a position other than by detailed ground survey.

Prepared by Geospatial Services, National Native Title Tribunal (17 June 2011).

Notwithstanding the statement below, the application area does not merely "include" the land and waters subject to the following lots, but is **14** limited to the land and waters subject to those lots. This application does not include areas which were not claimed in the original application or in the amended application filed 30 October 2008.

QUD6196/98 Turrbal People (QC98/26) (as amended) – Enclosure 1

The application area includes all the land and waters subject to the following lots.

(This description has been compiled based on the original lots as listed in the application filed on 30 October 2008. A significant number of those lots will have been replaced by more current lot identifiers).

Prepared by Geospatial Services, National Native Title Tribunal (17 June 2011).

The applicant excludes from the application:

1. any areas covered by valid acts on or before 23 December 1996 comprising such of the following as are included as extinguishing acts within the *Native Title Act 1993*, as amended, or the *Native Title Act (Queensland) Act*, as amended:
 - (a) Category A past acts, as defined in *NTA* section 229;
 - (b) Category A intermediate period acts as defined in *NTA* section 232B.
2. any areas in relation to which a previous exclusive possession act, as defined in section 23B of the *NTA*, was done in relation to an area, and, either the act was an act attributable to the Commonwealth, or the act was attributable to the State of Queensland, and a law of that State has made provision as mentioned in section 23E in relation to the act.
3. any areas in relation to which native title rights and interests have otherwise been extinguished, including areas subject to:
 - (a) an act authorised by legislation which demonstrates the exercise of permanent adverse dominion in relation to native title; or
 - (b) actual use made by the holder of a tenure other than native which is permanently inconsistent with the continued existence of native title.
4. Paragraphs (1), (2) and (3) above are subject to such of the provisions of sections 47, 47A and 47B of the *NTA* as apply to any part of the area contained within this application, particulars of which will be provided prior to the hearing but which include areas that are occupied by one or more of the native title claim group and may be listed in Schedule L at a later date.
