

## QUD147/2006 Gudjala People #2 (QC2006/008)

### External boundary description

The native title determination application area covers all the land and waters the subject of QUD147/2006 Gudjala People #2 (QC2006/008) as accepted for registration on 30<sup>th</sup> June 2010.

### Further described as:

- Lot 11 on Plan NPW348;
- EPM13653 (at 11 April 2002);
- That part of EPM13650 (at 11 April 2002) that is south of the centreline of Clarke River;
- EPM13462 (at 11 April 2002);
- EPM13655 (at 11 April 2002);
- That part of EPM13676 (at 11 April 2002) that is north of a line extending between coordinate points located at Longitude 145.031824° East, Latitude 20.245570° South and Longitude 144.920962° East, Latitude 20.207523° South;
- That part of EPM13700 (at 12 July 2002) that is north of a line defined by the following coordinate points.

Longitude° (East)	Latitude° (South)
144.704129	20.103708
144.594686	20.046709
144.462298	20.006961

- ML10281;
- ML10282;
- ML10283;
- ML10284; and
- ML10285.

### Note

#### Data Reference and source

- QUD147/2006 Gudjala People #2 (QC2006/008) as accepted for registration on 30<sup>th</sup> June 2010.
- Mining Tenement data sourced from the Department of Natural Resources and Mines, (October, 2013), unless otherwise listed.
- Cadastre data sourced from Department of Natural Resources and Mines (August, 2013).

### **Reference datum**

Geographical coordinates have been provided by the NNTT Geospatial Services and are referenced to the Geocentric Datum of Australia 1994 (GDA94), in decimal degrees and are based on the spatial reference data acquired from the various custodians at the time

### **Use of Coordinates**

Where coordinates are used within the description to represent cadastral or topographical boundaries or the intersection with such, they are intended as a guide only. As an outcome to the custodians of cadastral and topographic data continuously recalculating the geographic position of their data based on improved survey and data maintenance procedures, it is not possible to accurately define such a position other than by detailed ground survey.

Prepared by Geospatial Services, National Native Title Tribunal (24 October 2013)
