Data Reference and source

- External boundary Part A and B compiled by Queensland South Native Title Services, Based on data sourced from the Commonwealth of Australia, NNTT May 2014.
- Rivers, Creeks and tributaries based on 1:250k Topographic vector data © Commonwealth of Australia, (Geoscience Australia) 2003.
- Culgoa River where possible based on cadastral data sourced Department of Natural Resources and Mines (Qld) February 2014).
- Lot reference based on cadastral data sourced from Department of Natural resources and Mines (Qld) May 2014.

Reference datum

Geographical coordinates are based on spatial data referenced to the Geocentric Datum of Australia 1994 (GDA94), in decimal degrees and are based on the spatial reference data acquired from the various custodians at the time.

Use of Coordinates

Where coordinates are used within the description to represent cadastral or topographical boundaries or the intersection with such, they are intended as a guide only. As an outcome to the custodians of cadastral and topographic data continuously recalculating the geographic position of their data based on improved survey and data maintenance procedures, it is not possible to accurately define such a position other than by detailed ground survey.
