### **Note**

#### **Data Reference and source**

- Cadastral data sourced from Department of Natural Resources and Mines, Qld (February 2013).
- Rivers / Creeks based on Cadastral data, where available; otherwise 1:250K topographic vector data is © Commonwealth of Australia (Geoscience Australia) 2006.

### **Reference datum**

Geographical coordinates have been provided by the NNTT Geospatial Services and are referenced to the Geocentric Datum of Australia 1994 (GDA94), in decimal degrees and are based on the spatial reference data acquired from the various custodians at the time

### **Use of Coordinates**

Where coordinates are used within the description to represent cadastral or topographical boundaries or the intersection with such, they are intended as a guide only. As an outcome to the custodians of cadastral and topographic data continuously recalculating the geographic position of their data based on improved survey and data maintenance procedures, it is not possible to accurately define such a position other than by detailed ground survey.
