

Mulga Guyurru [Murray Falls]

Attachment B

External boundary description

The application area covers all the land and waters within the external boundary described as:

Commencing at the intersection of the High Water Mark and the centreline bank Five Mile Creek and extending generally south westerly along the centreline of that creek and an unnamed creek to its source at approximately Longitude 146.017867° East, Latitude 18.355085° South; then south westerly to the intersection of the Herbert River 100K river basin boundary at Longitude° 146.013522 East; then generally north westerly and again generally westerly along that river basin boundary to, Longitude 145.816391° East, Latitude 18.293854° South; then westerly to the source of an unnamed creek at Longitude 145.813980° East, Latitude 18.292870° South; then generally north westerly, generally south westerly, generally westerly and again generally north westerly along the centrelines of that creek, Yamamie Creek and the Herbert River to the centreline of Blencoe Creek; then generally northerly and generally north easterly along that centreline and the centreline of an unnamed creek to Longitude 145.656280° East (Latitude 18.130650° South); then generally north easterly passing through the following coordinate points:

Longitude° East	Latitude° South
145.658903	18.125505
145.679623	18.101425
145.705383	18.075292
145.722557	18.060545
145.748317	18.045798
145.772397	18.042625
145.802077	18.031985
145.835677	18.028065

Then north easterly to the intersection of the centrelines of an unnamed creek and the Murray River at Longitude 145.851919° East, Latitude 18.016160° South; then generally easterly, generally south easterly, generally north easterly, generally easterly and generally southerly along the centreline of the northern channel of the Murray River to its mouth, being the boundary of native title determination application QUD308/2014 Gulngay People (QC2014/002); then generally southerly along the High Water Mark, crossing the mouths of

any waterways between the seaward extremities of each of the opposite banks of each such waterway back to the commencement point.

Exclusions

This application excludes native title determination QUD6240/1998 Girramay People (QCD2009/004) as determined by the Federal Court on 10 December 2009.

Note

Data Reference and source

- Application boundary data compiled by National Native Title Tribunal based on information and instruction provided by the applicant.
- Native title determination application QUD308/2014 Gulngay People (QC2014/002) as accepted for registration on 26 September 2014.
- Cadastre data sourced from Department of Natural Resources and Mines, Qld (February 2015).
- Rivers / Creeks based on cadastral data, else, topographic vector data © Commonwealth of Australia (Geoscience Australia) 2001.
- Herbert River 100K river basin data sourced from Department of Natural Resources and Mines.

Reference datum

Geographical coordinates have been provided by the NNTT Geospatial Services and are referenced to the Geocentric Datum of Australia 1994 (GDA94), in decimal degrees and are based on the spatial reference data acquired from the various custodians at the time

Use of Coordinates

Where coordinates are used within the description to represent cadastral or topographical boundaries or the intersection with such, they are intended as a guide only. As an outcome to the custodians of cadastral and topographic data continuously recalculating the geographic position of their data based on improved survey and data maintenance procedures, it is not possible to accurately define such a position other than by detailed ground survey.

Prepared by Geospatial Services, National Native Title Tribunal (17 August 2015)
