REASONS FOR JUDGMENT

O'BRYAN J:

Introduction

- 1 By orders made today, a determination of native title under the *Native Title Act 1993* (Cth) (NTA) has been made on behalf of the Wirangu and Nauo peoples in respect of an area of land and waters in the west of the Eyre Peninsula in South Australia, from the coast just south of Elliston to a point on the coast north of Venus Bay stretching inland to the Eyre Highway from Wudinna to Kyancutta.
- 2 The determination is made in the following proceedings (**relevant proceedings**):
 - (a) applications made on behalf of the Wirangu People in proceedings SAD 64 of 2022 Wirangu No 2 Part B (**Wirangu No 2B**), SAD 228 of 2019 Wirangu No 3 (**Wirangu No 3B**) and SAD 84 of 2021 Wirangu Sea Claim #2 Part B (**Wirangu Sea Claim #2B**); and
 - (b) application made on behalf of the Nauo people in proceeding SAD 63 of 2018 Nauo #3 (**Nauo #3**).
- 3 The parties to the relevant proceedings reached agreement on the terms of a native title determination (**proposed consent determination**) for the areas of the land and sea the subject of the applications (**determination area**) and a form of orders regarded as appropriate to provide recognition of the native title rights and interests held by the native title claimants, the Wirangu people and the Nauo people, in the determination area. The agreement is recorded in a document filed with the Court which has been signed on behalf of each party to each relevant proceeding.
- 4 The parties applied to the Court for an order in, or consistent with, the terms of the proposed consent determination pursuant to ss 87 and 87A of the Act. The parties rely on s 87 in respect of Nauo #3 as the agreement relates to all of the area covered by that application. The parties rely on s 87A in respect of Wirangu No 2B, Wirangu No 2B and Wirangu Sea Claim #2B as the agreement relates to the relevant Part B areas of those applications (being the areas overlapped by Nauo #3). The determination has been made by consent pursuant to the Court's powers under ss 87 and 87A of the NTA.
- 5 These are my reasons for making the determination sought by the parties.

The native title applications

Filing, notification and partition of the applications

- 6 The Wirangu people lodged the Wirangu No 2 application over land in the south western part of the Eyre Peninsula in South Australia on 28 August 1997 in the National Native Title Tribunal (application numbered SC1997/006). Following amendment of the NTA in 1998, from 30 September 1998 Wirangu No 2 became a proceeding in the Federal Court numbered SAD 6019 of 1998, recently renumbered SAD 64 of 2022. Wirangu No 2 was entered on the Register of Claims by the Registrar of the National Native Title Tribunal on 28 August 1997 and, as amended over time, has remained registered. The application was notified under s 66 on 7 February 2001, with the period specified in the notice ending on 7 May 2018.
- 7 The Nauo people filed the Nauo #3 application over land which wholly overlapped the southern part of the Wirangu No 2 application in the Federal Court on 16 March 2018. The application was notified under s 66 on 22 August 2018, with the period specified in the notice ending on 21 November 2018.
- 8 On 5 April 2018, Justice White made orders under s 67 of the NTA that Wirangu No 2 be separated into two parts to be called "Wirangu No 2 Part A" and "Wirangu No 2 Part B". Wirangu No 2A comprised that portion of Wirangu No 2 not overlapped by Nauo #3. Wirangu No 2B comprised the southern part of the Wirangu No 2 claim area overlapped by Nauo #3.
- 9 On 28 October 2019, the Wirangu people filed the Wirangu No 3 application over small parcels of land within the boundary of Wirangu No 2 in reliance upon s 47B NTA so that any prior extinguishment over those parcels which had become vacant Crown land since the lodgment of Wirangu No 2 would be disregarded. The application was notified under s 66 on 22 April 2020, with the period specified in the notice ending on 21 July 2020.
- 10 On 26 November 2019, orders were made under s 67 of the NTA that Wirangu No 3 be separated into Part A and Part B in conformity with the areas separated into Parts A and B in Wirangu No 2.
- 11 On 18 May 2021, the Wirangu people filed the Wirangu Sea Claim #2 over the waters below the low water mark off shore from Wirangu No 2. The application was notified under s 66 on 11 August 2021, with the period specified in the notice ending on 10 November 2021.

- 12 On 3 June 2021, orders were also made under s 67 of the NTA separating the Wirangu Sea Claim #2 into Part A and Part B in conformity with the areas separated into Parts A and B in Wirangu No 2.
- 13 On 8 December 2022, Charlesworth J made a determination of the native title rights and interests of the Wirangu people in respect of Parts A of the three Wirangu claims (Wirangu No 2A, Wirangu No 3A and Wirangu Sea Claim #2A) by consent of the parties pursuant to s 87A of the NTA: *Wilson, on behalf of the Wirangu People v State of South Australia (No 2)* [2022] FCA 1460.

The claim areas

- 14 The claim areas lie along the west of the Eyre Peninsula from the coast just south of Elliston to a point on the coast north of Venus Bay stretching inland to the Eyre Highway from Wudinna to Kyancutta. Specifically:
- (a) Wirangu No 2B and Nauo #3 cover almost 3,500 sq km of land. Wirangu No 2B ceases at the shoreline above the Lowest Astronomical Tide. The coastal boundary of Nauo #3 extends below the Lowest Astronomical Tide seaward to 10 metres along the cliffs and 50 metres off shore from easily accessible beaches. Onshore the boundary lies along the western Eyre Peninsula from (in the south) a coastal point south east of Elliston, north along the coastline to a point north west of Venus Bay, turning north east for approximately 8 km then inland in a straight line east to the Eyre Highway at a point just north of Wudinna. The boundary then follows the Eyre Highway south to Kyancutta turning southwest back to the point on the coast south of Elliston. The claim areas lie within the local government areas of the District Council of Streaky Bay, Wudinna District Council and the District Council of Elliston.
 - (b) Wirangu No 3B covers a number of relatively small individual parcels of land lying within the external boundary of Wirangu No 2B and Nauo #3, beside the shoreline of Venus Bay south of Port Kenny, along the coast south of Venus Bay and around Lake Newland, with a total area of less than 34 sq km, being parcels of land formerly subject to exclusive possession acts but returned to the Crown at different times after Wirangu No 2 was lodged. By reason of s 64(1) of the NTA, a separate claim was required to include those parcels as land where native title could be recognised.
 - (c) Wirangu Sea Claim #2B covers the waters offshore from Wirangu No 2B below the Lowest Astronomical Tide seaward to 10 metres and including, as does Nauo #3:

- (i) all internal islands and waters of Venus Bay seaward of the Lowest Astronomical Tide;
- (ii) all internal waters of Waterloo Bay seaward of the Lowest Astronomical Tide;
and
- (iii) seaward 50 metres from the Lowest Astronomical Tide of easily accessible beaches as defined in the proposed orders.

15 The land and waters of the claim areas support pastoral, agricultural, fishery and tourism industries. The claim areas have warm to hot dry summers and cool, wet winters. They feature a rugged and relatively undeveloped coastline of beaches and soaring cliffs with a number of islands, bays and inlets offering great bio-diversity and geographically dramatic headlands. The landscape is undulating and low, with most areas less than 150 metres above sea level. There are some isolated large hills with a number of granite peaks of great cultural and mythological significance to Wirangu and Nauo peoples, some reaching hundreds of metres above the surrounding mostly flat or gently undulating terrain. A large proportion of the land has been cleared for agricultural production; however, substantial areas of native vegetation remain.

16 There are no rivers in the claim areas and its interior can be very arid. However, the claim areas feature some inland water systems like Samphire Flats and Lake Newland, a natural saline lake 20 km in length, being the most extensive wetland on Eyre Peninsula. Lake Newland lies at the base of a range of sand hills separating it from the sea. Fresh water springs feed into the lake and bird life such as Cape Barren geese, wild duck, snipe, shelduck and migratory waders can be found. Lake Newland and connected water systems are very significant sites for the Seven Sisters (Pleiades) Dreaming that travels the length of the Eyre Peninsula. These are very important spiritually imbued areas for Wirangu and Nauo peoples who have the responsibility to protect.

17 The claim areas include the extensive Kulliparu and Cocata conservation areas that cover more than 300 sq km of intact mallee and broombush habitat protecting rare and delicate flora and fauna.

European settlement of the claim areas

18 From 1788 to 1825, the British colony of New South Wales (**NSW**) extended westwards to 135° east longitude (about 10 km east of the township of Elliston). The land further to the west, which includes the claim areas, was known as New Holland and was unclaimed by any foreign

power. In 1825, the western boundary of NSW was extended to 129°, placing it at what is now the border between South Australia and Western Australia.

- 19 Effective sovereignty for the claim areas began from about 1839–40, when the first Europeans explorers ventured into the area, or the early 1850s, when the first sheep stations were carved out and a police station was established at Venus Bay in 1853.
- 20 Pastoralists and others followed, establishing pastoral stations across the claim areas from the 1860s onwards. Settlement of the area was a contested and often violent frontier for a long period of time, severely impacting Wirangu and Nauo peoples.
- 21 Venus Bay, Port Kenny and Elliston are the primary residential hubs within the claim areas. Most of the Wirangu and Nauo claimants live in the small towns scattered throughout the Eyre Peninsula. As shown by the statements made by members of the claim group (referred to below), the claimants, their families and forebears have occupied and found work within the claim areas continuously since colonists arrived.
- 22 Following the enactment of the NTA, in 1997 Wirangu and Nauo peoples commenced their efforts to secure recognition of their native title rights and interests held under their traditional laws and customs in the claim areas.
- 23 Since prior to its filing and continuously since then, the Wirangu and Nauo claims have been developed with the support of the native title representative body for the region, the Aboriginal Legal Rights Movement (**ALRM**) and subsequently by South Australian Native Title Services (**SANTS**).

Parties to the applications

- 24 By the end of the notification periods in respect of each of the applications, persons who provided Forms 5 within the notification period were joined as parties to the proceedings including local government bodies and parties with fishing, pastoral or commercial interests within the claim area. In the course of the proceedings, some parties have withdrawn, some have been added and the joinder of others was refused (see *Wilson on behalf of the Wirangu People v South Australia* [2022] FCA 829). The current parties to the claims are listed in Schedule 8 to the proposed determination. All parties consent to the proposed consent determination.

History of the applications

- 25 When originally lodged, Wirangu No 2 covered a larger area than shown by the present boundaries of the claim. It overlapped with the Barngarla claim (SAD 6011 of 1998 lodged on 4 April 1996) and was subsequently overlapped by Nauo (SAD 6021 of 1998 – now SAD 65 of 2022 lodged on 17 November 1997).
- 26 Assisted by the ALRM, agreements between the claimant parties were reached resolving their overlapping claims. To give effect to that agreement, leave to amend the external boundaries of Wirangu No 2 was granted by the Court on 12 March 1999 and on 25 January 2000.
- 27 The large Nauo claim’s external boundaries were also amended in 1999 substantially reducing its claim area, including withdrawing from any overlap with the Wirangu No 2 claim. The filing of Nauo #3 in 2018, following the Barngarla determination (in *Croft on behalf of the Barngarla Native Title Claim Group v State of South Australia (No 2)* [2016] FCA 724) restored a Nauo claim to part of its traditional country from which the earlier Nauo claim had been withdrawn, creating the overlap with Wirangu No 2.
- 28 On 5 November 2018, Justice White made orders programming for hearing certain questions in relation to the existence of native title in Wirangu No 2A. On 16 October 2019, orders vacating the trial of the Wirangu Part A proceedings were made so that the parties could develop the form of determination appropriate to resolve those proceedings by consent. As noted earlier, a determination of native title was made on 8 December 2022 by Justice Charlesworth in respect of Parts A of the three Wirangu claims (Wirangu No 2A, Wirangu No 3A and Wirangu Sea Claim #2A) by consent of the parties pursuant to s 87A of the NTA: *Wilson, on behalf of the Wirangu People v State of South Australia (No 2)* [2022] FCA 1460.
- 29 On 18 December 2019, Justice White made orders programming for hearing certain questions in relation to the existence of native title in (relevantly) Parts B of the Wirangu claims and the Nauo #3 claim. That trial was due to commence on 2 August 2021.
- 30 In April 2021, a conference between the experts for the Wirangu people, the experts for the Nauo people and the experts for the State took place. The outcome of that conference resulted in the parties exploring the possibility of resolution of the proceedings by consent. This led to suspension of the trial programming orders on 19 July 2021 and their vacation on 28 September 2021.

31 As part of the outcome of those negotiations, on 8 December 2021 Nauo #3 was amended to, amongst other things, reduce the offshore boundary of the claim area. On 1 March 2022, the Wirangu Sea Claim #2 was also amended to reduce the boundaries of the offshore area in accordance with matters agreed between the Wirangu and Nauo Applicants, the State and the Commonwealth.

Evidence filed in the proceedings

32 In the course of the Wirangu and Nauo claims, the Applicants have filed evidence from members of the claim groups and expert anthropological evidence. That lay evidence comprised:

- (a) Wirangu outlines of evidence and/or s 47B affidavits from claimants Veda Betts, Neville Miller, Wendy Ware, Vernon ‘Penong’ Miller, Susie Betts, Jack Johncock, Sandra Miller, Haydn Davey, Elizabeth Pool, Sandy Ware, Malcolm Bilney, Wayne Maurice Miller (deceased) and Allan Wilson (deceased); and
- (b) Nauo outlines of evidence and/or s 47B affidavits from claimants Brenton Weetra, Danielle A’Hang, Jody Miller, Pauline Branson, Jo-Anne Miller, Michael Miller, David Buzza, Jason Ramp, Mark Larking and Cynthia Buzza.

33 The following expert anthropological reports were filed:

- (a) for Wirangu, by Dr Philip Clarke, Mr Jeffery Stead and Ms Lyn Coad;
- (b) for Nauo, by Dr Scott Cane and Dr Belinda Leibelt; and
- (c) for the State, by Dr Kingsley Palmer (and a historical report by Mr Tom Gara).

34 As noted above, in April 2021 a conference of experts occurred, following which a joint report was produced recording substantial agreement between the experts on key propositions discussed.

35 On the basis of the totality of the evidence, including the outcomes of the conference of experts, the State and active respondents gave careful consideration to the material provided by the Applicants and also had regard to the expert opinions. The State and active respondents formed the view that they could agree to the recognition of native title rights and interests in the relevant parts of the claim areas. This led to negotiation of an indigenous land use agreement discussed below and the proposed consent determination.

Indigenous Land Use Agreement and Prescribed Body Corporate

36 By an affidavit affirmed on 2 February 2023, Ella Moloney (a solicitor employed by the Crown Solicitor's Office for the State) deposed that the Applicants and the State of South Australia had agreed the terms of an indigenous land use agreement (**Settlement ILUA**) in connection with the settlement of the relevant proceedings by the proposed consent determination. The Settlement ILUA will be executed by the Applicants, the State and the proposed prescribed body corporate for the determination (Wirangu and Nauo Aboriginal Corporation), which would also be a party to the ILUA upon the registration of that body corporate.

37 By an affidavit affirmed on 3 February 2023, Bianca Lena (Acting Principal Legal Officer for South Australian Native Title Services and the legal representative for the Wirangu Applicants and the acting legal representative for the Nauo Applicant) deposed that, at authorisation meetings held in Adelaide on 14 October 2022 (at which Ms Lena was present), members of the Wirangu and members of the Nauo native title claim groups, in separate meetings, each resolved unanimously to nominate the Wirangu and Nauo Aboriginal Corporation to be the prescribed body corporate to hold their native title on trust. The parties tendered a copy of the Certificate of Registration of the Wirangu and Nauo Aboriginal Corporation under the *Corporations (Aboriginal and Torres Strait Islander) Act 2006* (Cth), having the Indigenous Corporation Number 9901.

38 The State and the Applicants agree that the proposed consent determination of native title will take effect upon the registration of the Settlement ILUA under Div 3 of Pt 2 of the NTA.

39 Among other matters, the Settlement ILUA records the parties agreement (including for the purposes of s 24EBA of the NTA) that the vesting of adjacent land and subjacent land in the Minister under s 15(1)(a) of the *Harbors and Navigation Act 1993* (SA) is a valid act to which the non-extinguishment principle applies. The Settlement ILUA also provides for validation of potentially invalid previous exclusive possession acts and compensation of the Applicants for prior extinguishment of native title over certain parcels in the claim areas.

Statutory requirements

40 The parties seek orders by consent from the Court pursuant to s 87 of the NTA (in respect of Nauo #3) and s 87A of the NTA (in respect of Wirangu No 2B, Wirangu No 2B and Wirangu Sea Claim #2B).

41 Under each of ss 87 and 87A, the Court is empowered to make an order in, or consistent with, the terms agreed between the parties without holding a hearing if:

- (a) the period specified in the notice given under s 66 has ended (s 87(1), s 87A(1)(b));
- (b) agreement has been reached on the terms of an order of the Court between the parties to the proceeding (and, if the Commonwealth Minister is intervening at the time the agreement is made, the Commonwealth Minister), and the terms of the agreement, in writing signed by or on behalf of the parties (and, if the Commonwealth Minister is intervening at the time the agreement is made, the Commonwealth Minister) has been filed with the Court (s 87(1)(a), (aa) and (b), s 87A(1)(c), (d) and (2));
- (c) the Court is satisfied that an order in, or consistent with, the terms agreed between the parties would be within the power of the Court (s 87(1)(c), s 87A(4)(a)); and
- (d) the Court is satisfied that it is appropriate to make the order (s 87(1A), s 87A(4)(b)).

See generally *Munn for and on behalf of the Gunggari People v State of Queensland* (2001) 115 FCR 109 (**Munn**) per Emmett J at [4]-[5].

Condition (a) – period specified in s 66

42 The periods specified in s 66 of the NTA for each of the applications has been set out earlier in these reasons. Each of those periods has ended. Accordingly, condition (a) is satisfied.

Condition (b) – agreement has been reached and the terms filed with the Court

43 A minute of consent determination in respect of all of the relevant proceedings, signed on behalf of all of the parties to the relevant proceedings (including the Commonwealth which is a party to Wirangu No 2B, Wirangu Sea Claim #2B and Nauo #3), has been filed with the Court. The minute records that:

- (a) the parties have reached agreement on the terms of orders of the Court in relation to the relevant proceedings; and
- (b) the terms of the agreement are that each party consents to the making of orders pursuant to ss 87 and 87A of the NTA and a determination of native title in the terms that were distributed by the State on 27 September 2022, including the maps and the tenure schedules distributed on 16 September 2022.

44 A copy of the proposed determination, referred to in the minute, has also been filed with the Court and is the basis for this determination by the Court. Accordingly, condition (b) is satisfied.

Condition (c) – proposed order would be within the power of the Court

45 As observed by Mortimer J in *Freddie v Northern Territory* [2017] FCA 867 (**Freddie**) (at [15]), in order to be satisfied that the proposed orders are within the power of the Court, consideration must be given to the requirements in the NTA that must be met in respect of any determination of native title. In that regard, I have given particular consideration to the following requirements:

- (a) the requirement in s 68 that the area covered by the determination cannot be the subject of a previously approved determination of native title;
- (b) the requirement in s 94A that the determination set out the details of the matters required by s 225;
- (c) the requirement in s 223(1)(c) that the determination concerns rights and interests which the Australian common law is able to recognise; and
- (d) the requirement in s 55 for the Court to make such determinations as are required by ss 56 and 57 at the same time as, or as soon as practicable after, the Court makes the determination, including:
 - (i) specifying whether the native title is to be held in trust and, if so, by whom; and
 - (ii) if the native title is to be held in trust by a body corporate, that a representative of the native title holders has given the Court a written nomination of a prescribed body corporate together with the written consent of the body corporate to be the trustee; and
 - (iii) if the native title is not to be held in trust, that a representative of the native title holders has given the Court a written nomination of a prescribed body corporate together with the written consent of the body corporate to be a non-trustee prescribed body corporate.

Section 68 (overlap with previous determination)

46 Based on the records of the National Native Title Register kept under Pt 8 of the Act, I am satisfied that there is no determination of native title in existence over the area the subject of this proposed consent determination.

Section 94A (details required by s 225) and s 223(1)(c)

47 Section 225 defines a “determination of native title” as follows:

A **determination of native title** is a determination whether or not native title exists in relation to a particular area (the **determination area**) of land and waters and, if it does exist, a determination of:

- (a) who the persons, or each group of persons, holding the common or group rights comprising the native title are; and
- (b) the nature and extent of the native title rights and interests in relation to the determination area; and
- (c) the nature and extent of any other interests in relation to the determination area; and
- (d) the relationship between the rights and interests in paragraphs (b) and (c) (taking into account the effect of this Act); and
- (e) to the extent that the land or waters in the determination area are not covered by a non-exclusive agricultural lease or a non-exclusive pastoral lease—whether the native title rights and interests confer possession, occupation, use and enjoyment of that land or waters on the native title holders to the exclusion of all others.

48 I have examined the proposed consent determination. I am satisfied that each of the matters referred to in s 225 is appropriately articulated in those orders and the rights and interests so described are recognisable by the common law of Australia (as per s 223(1)(c)). I note the following matters in particular:

- (a) The determination area is defined at paragraph 6 of the proposed determination by reference to schedule 1, with paragraph 7 defining the areas of land and water within the determination area in which native title exists by reference to schedules 3, 4 and 5.
- (b) A description of the native title holders is set out in paragraph 11 of the proposed determination.
- (c) A description of the nature and extent of the native title rights and interests in relation to the determination area is set out in paragraphs 13 to 16 of the proposed determination. Paragraph 14 stipulates that the native title rights and interests do not confer possession, occupation, use and enjoyment of that land or waters on the native title holders to the exclusion of all others.
- (d) A description of the nature and extent of other interests in relation to the determination area is set out in paragraph 17 of the proposed determination.
- (e) The relationship between the native title rights and interests and the other interests is set out in paragraph 18 of the proposed determination.

Section 55 (whether native title held in trust and prescribed body corporate)

49 Section 55 of the NTA stipulates that, if the Court proposes to make an affirmative determination of native title it must, at the same time as, or as soon as practicable after, it makes the determination, make such determinations as are required by s 56 (which deals with the question whether the native title is to be held in trust) and s 57 (which deals with the determination of a prescribed body corporate and its functions).

50 The proposed consent determination contains orders to the effect that the native title is to be held in trust and that the Wirangu and Nauo Aboriginal Corporation is to be the prescribed body corporate for the purposes of s 57(1) of the NTA (which should properly be a reference to s 56(2)(b)).

51 Before making those orders, s 56(2) requires that the Court receive a written nomination from a representative of the native title holders of Wirangu and Nauo Aboriginal Corporation to be trustee of the native title, together with the written consent of that body corporate, and the Court must be satisfied that Wirangu and Nauo Aboriginal Corporation is a prescribed body corporate within the meaning of the NTA.

52 Section 59 provides that regulations may prescribe the kinds of body corporate that may be determined under s 56(2)(b). Regulation 4 of the *Native Title (Prescribed Bodies Corporate) Regulations 1999* (Cth) sets out the requirements for a body corporate to be a prescribed body corporate for that purpose. Regulation 4 provides as follows:

4 Prescribed bodies corporate (Act s 59)

- (1) An Aboriginal and Torres Strait Islander corporation is prescribed for section 59 of the Act if it is registered for the purpose of being the subject of a section 56 or 57 determination.
- (2) An Aboriginal and Torres Strait Islander corporation is taken to be registered for the purpose of being the subject of a section 56 or 57 determination only if:
 - (a) the purpose of becoming a registered native title body corporate is set out in the objects of the corporation; and
 - (b) all members of the corporation are:
 - (i) persons who, at the time of making of the section 56 or 57 determination, are included, or are proposed to be included, in the native title determination as native title holders; or
 - (ii) persons to whom the persons mentioned in subparagraph (i) have consented; and
 - (c) at all times after the section 56 or 57 determination is made, all members

of the corporation are:

- (i) persons who have native title rights and interests in relation to the land or waters to which the native title determination relates; or
- (ii) persons, or a class of persons, to whom the persons mentioned in subparagraph (i) have consented; and
- (d) the corporation meets the Indigeneity requirement mentioned in section 295 of the *Corporations (Aboriginal and Torres Strait Islander) Act 2006*.

53 Regulation 3 stipulates that the expression “Aboriginal and Torres Strait Islander corporation” has the same meaning as in the *Corporations (Aboriginal and Torres Strait Islander) Act 2006* (Cth) (**CATSI Act**), which is a corporation registered under that Act.

54 The determinations that are required to be made by the Court under ss 56 and 57 of the Act are important elements of a native title determination, a matter which has been highlighted by some recent cases in the Court: see *Farrer on behalf of the Ngarrawanji Native Title Claim Group v State of Western Australia (No 4)* [2021] FCA 1497 and *Mulardy, on behalf of the Birriman-gan Native Title Claim Group v State of Western Australia (No 2)* [2022] FCA 276. Initially, the proposed consent determination in these proceedings was not supported by any evidence showing that: first, the Wirangu and Nauo peoples had nominated Wirangu and Nauo Aboriginal Corporation to be the prescribed body corporate to hold their native title in trust; second, the Wirangu and Nauo Aboriginal Corporation had consented to so act; and third, the Wirangu and Nauo Aboriginal Corporation is a prescribed body corporate. As noted earlier, the Court has now received evidence concerning the nomination by the Wirangu and Nauo peoples of Wirangu and Nauo Aboriginal Corporation to be the prescribed body corporate to hold their native title in trust, that company’s consent to so act and its registration under the *Corporations (Aboriginal and Torres Strait Islander) Act 2006* (Cth). In the present proceedings and on the basis of the evidence that has been filed, the Court is willing to infer that the other regulatory requirements to be a prescribed body corporate have been satisfied, although ordinarily it would be helpful to the Court to receive affidavit evidence confirming all necessary requirements have been fulfilled.

Condition (d) – it is appropriate to make the proposed order

55 As noted earlier, under each of ss 87 and 87A, the Court is empowered to make an order in, or consistent with, the terms agreed between the parties without holding a hearing if the Court is satisfied that it is appropriate to make the order. Factors that may be relevant to the exercise of the Court’s discretion to make a determination of native title under ss 87 and 87A have been

considered in many cases, including *Munn* at [28]-[33]; *Kelly on behalf of the Byron Bay Bundjalung People v NSW Aboriginal Land Council* [2001] FCA 1479 at [20]-[23]; and *James on behalf of the Martu People v State of Western Australia* [2002] FCA 1208 at [4]. Justice Mortimer recently gave comprehensive consideration to the issue of appropriateness in the context of s 87(1A) in *Freddie* and in *Agius v State of South Australia (No 6)* [2018] FCA 358 (*Agius*). At [63] of *Agius*, her Honour observed:

The Court's function where there is agreement as to a determination of native title, and its discretion, must also be understood in the context of the Native Title Act's emphasis on negotiation and alternative dispute resolution, whereby one particular object of the Native Title Act is to resolve claims to native title without judicial determination in a contested proceeding: see *Munn (for and on behalf of the Gunggari People) v Queensland* [2001] FCA 1229; 115 FCR 109 at [28] (Emmett J). I note in this context that the Preamble to the Act envisages that:

A special procedure needs to be available for the just and proper ascertainment of native title rights and interests which will ensure that, if possible, *this is done by conciliation* and, if not, in a manner that has due regard to their unique character.

(Emphasis added)

56 Her Honour summarised the role of the Court as follows:

- (a) The s 87(1A) role is quite different from the Court's role in contested hearings. The Court's focus is on the agreement between the parties: *Lander v State of South Australia* [2012] FCA 427 at [11]; *Lovett on behalf of the Gunditjmarra People v State of Victoria* [2007] FCA 474 at [36] (*Agius* at [62]).
- (b) Satisfaction as to appropriateness must take into account the nature of the rights sought to be recognised in the determination, having operation against the whole world, including rights *in rem*. The orders should be clear in their terms and the process one which observes procedural fairness and is supported by the State's agreement that a "credible and rational basis" for the determination has been made out (*Agius* at [64]).
- (c) The discretion as to appropriateness is wide but the Court must focus on the individual circumstances of each determination: *Hayes on behalf of the Thalanyji People v State of Western Australia* [2008] FCA 1487 at [18] (*Agius* at [65]).
- (d) The Court must also consider ss 37M and 37N of the *Federal Court of Australia Act 1976* (Cth) and pursue the objectives of those provisions promoting the just resolution of disputes, according to law, and as quickly, inexpensively and efficiently as possible (e.g. *Yaegl People #2 v Attorney General of New South Wales* [2017] FCA 993 per Jagot J) (*Agius* at [66]).

- (e) There must be some probative material to allow the Court to satisfy itself that the requirements of s 225 of the Act are met. However, there is no requirement to file all of the material as the determination is based on the agreement entered into on a free and informed basis: *Hughes (on behalf of the Eastern Guruma People) v State of Western Australia* [2007] FCA 365 at [9] (*Agius* at [68] to [69]).
- (f) The Court is not required to conduct an enquiry on the merits, but must still be satisfied that the State made a reasonable and rational decision in entering the s 87 agreement: *Brown v Northern Territory of Australia* [2015] FCA 1268 at [23]; *King (on behalf of the Eringa Native Title Claim Group and the Eringa No 2 Native Title Claim Group) v State of South Australia* [2011] FCA 1387 at [21] (*Agius* at [70] to [71]).
- (g) The Court should be satisfied that the State came to the agreement after discharging its public responsibilities to the community it represents, including the claimants: *Yaegl People #2 v Attorney General of New South Wales* [2017] FCA 993 at [16] (*Agius* at [72]).
- (h) The public interest in a settled outcome as opposed to an exhaustive contested process is considerable: *Prior on behalf of the Juru (Cape Upstart People) v State of Queensland (No 2)* [2011] FCA 819 at [26] (*Agius* at [74]).
- (i) The flexibility of a settled outcome allows the State to take into account a wide range of matters including, for instance, the history of dispossession (*Agius* at [75]).

57 In the present case, I am satisfied that it is appropriate to make the consent determination for the following reasons.

58 First, the agreement that has been reached between the parties is the culmination of a lengthy period of investigation and negotiation.

59 Second, all parties have been legally represented and there is no reason to doubt that the parties have made an informed decision to resolve the application by agreement.

60 Third, the State, in its role of protecting the interests of the community generally, has been an active participant in the investigation and negotiation of the proposed consent determination.

61 Fourth, the parties have filed lay and expert evidence which together shows that the agreement of the parties to the proposed consent determination has a reasonable and rational basis.

62 In reaching this conclusion, it is relevant to note two aspects of the proposed consent determination. First, the proposed determination recognises both the Wirangu people and the Nauo people as holding native title rights and interests in the claim area. In paragraph 11 of the proposed consent determination, the native title holders are defined in the following terms:

Under the traditional laws and customs acknowledged and observed by the Wirangu and Nauo people the Native Title Holders are those living Aboriginal people who are the descendants whether by birth or traditional adoption from any of the following Wirangu and or Nauo antecedents:

- i. Topsy Ahang;
- ii. Mother of Elizabeth Anderson;
- iii. Jack Buckskin;
- iv. Maria, Mother of Freddie Chester;
- v. Eliza Ellen (and the descendants of her son Bob Ware and spouse Lucy Minjia, and her daughters Jinny and Dinah Ware);
- vi. Yaldildi Johnny Gibera;
- vii. Mary, mother of Henry Weetra;
- viii. Mother of Nellie Williams.

and who identify as either Wirangu and/or Nauo and are recognised by the other Native Title Holders as having rights and interests in the Determination Area (together the **Native Title Holders**).

63 The native title rights and interests of the Native Title Holders are set out in paragraph 13 of the proposed consent determination. The recognition of both the Wirangu people and the Nauo people as holding native title rights and interests in the claim area is supported by the agreement of all of the anthropological experts, expressed in their joint report filed in the proceedings, with the proposition that those who occupied the claim area at sovereignty were likely to have recognised commonality and commensality (shared laws and customs) by the use of a number of names, including Wirangu and Nauo, and that both languages were likely to have been spoken in the claim area at sovereignty. By their agreement to the proposed consent determination, the parties can be taken to have agreed that the evidence supports the conclusion that, under the traditional laws and customs acknowledged and observed by the Wirangu and Nauo peoples, the above identified Native Title Holders hold native title rights and interests in the claim area. Having regard to the evidence that has been filed, I am satisfied that there is a proper basis for the parties' agreement.

64 The second aspect of the proposed consent determination that should be noted is paragraph 9 which states as follows:

In accordance with the agreement recorded in the Wirangu Part B / Nauo No 3 Settlement ILUA, native title exists, subject to the terms of these orders, in adjacent land and subjacent land within the Determination Area that is vested in the Minister under section 15(1)(a) of the *Harbors and Navigation Act 1993* (SA), including the areas identified in Schedule 5 but excluding those areas identified in Schedule 6.

65 As noted earlier, under the Settlement ILUA, the parties have agreed, including for the purposes of s 24EBA of the NTA, that the vesting of adjacent land and subjacent land in the Minister under s 15(1)(a) of the *Harbors and Navigation Act 1993* (SA) is a valid act to which the non-extinguishment principle applies. Paragraph 9 of the proposed consent determination recognises the statutory effect of the parties' agreement under the NTA (noting that the determination will not come into effect until the ILUA has been registered on the Register of Indigenous Land Use Agreements).

Conclusion

66 In conclusion, I am satisfied that the proposed consent determination should be made. The native title rights and interests of the Wirangu and Nauo peoples in the areas of land and sea that are the subject of the applications should be formally recognised in the proposed consent determination under the NTA.

67 It is appropriate to record that this determination of native title does not create native title in the determination area. Rather, it marks the recognition by the Australian legal system of the Wirangu people's and Nauo people's long held native title in this land which has existed, according to the traditional laws and customs of the Wirangu and Nauo peoples, since long before this determination today and before the time of the assertion of British sovereignty.

68 The Court commends the parties and their representatives for bringing this matter to a conclusion by way of agreement.

I certify that the preceding sixty-eight (68) numbered paragraphs are a true copy of the Reasons for Judgment of the Honourable Justice O'Bryan.

Associate:

E. French-Mullen
