

## Giniyawarni Yoowaniya Riwi

### External boundary description

The application area covers all the land and waters within the external boundary described as:

Commencing at the westernmost north western corner Mt Amhurst Pastoral Lease (N050119), being a point on the eastern boundary of Native Title Determination WAD6008/2000 Gooniyandi Combined #2 (WCD2013/003); then extending generally north westerly along the boundaries of that native title determination, passing through Longitude 126.235319° East, Latitude 18.060366° South, to the intersection with a southern boundary of Native Title Determination Application WAD268/2010 Yurriyangem Taam (WC2010/013) at Longitude 126.215276° East, Latitude 17.947641° South; then generally north easterly, generally easterly and generally southerly along boundaries of that native title application to the intersection of Longitude 126.861010° East with the centreline of Margaret River, further described as:

Then generally north westerly and westerly passing through Saddlers Yard (Longitude 126.238319° East, Latitude 17.934143° South), Lerida Gorge (Longitude 126.253049° East, Latitude 17.893863° South), a point midway between 6 Mile Gap and Conical Peak (Longitude 126.474421° East, Latitude 17.900802° South); then southerly to the intersection of the southern bank of Little Gold River with the Leopold River; then generally easterly along the southern bank of Little Gold River to Longitude 126.823264° East, being south of Pyra Gorge; then generally southerly passing through Dead Horse Yard (Longitude 126.857484° East, Latitude 18.365254° South) to the intersection of Longitude 126.861010° East with the centreline of Margaret River.

Then southerly along the boundary of Native title Determination Application WAD45/2012 Jaru (WC2012/003) to a point on the boundary of Native Title Determination WAD6008/2000 Gooniyandi Combined #2 (WCD2013/003) at Longitude 126.859406° East, Latitude 18.625170° South; then generally north westerly along that native title determination back to the commencement point, further described as:

Then north westerly passing through a north-eastern corner of the Louisa Downs Pastoral Lease (N049737) (at approx. Longitude 126.803551° East, Latitude 18.568987° South) to a point on a southern boundary of the aforesaid pastoral lease at Longitude 126.739219° East; then easterly and generally northerly and generally westerly along boundaries of that pastoral lease to the centreline of Margaret River, (in the vicinity of Hibberson Bluff); then generally north westerly along that centreline to Longitude 126.413963° East, (in the vicinity of Crowhurst Gorge); then north westerly to a point on the southern boundary of Mt Amhurst Pastoral Lease (N050119) at Longitude 126.368109 East; then westerly,

northerly, again westerly and again northerly along western boundaries of that past lease back to the commencement point.

## Note

### Data Reference and source

- Application boundary compiled by National Native Title Tribunal based on information or instructions provided by the applicants.
- Native Title Determination WAD6008/2000 Goonyndi Combined #2 (WC2013/003) as determined by the Federal Court on the 19<sup>th</sup> June 2013.
- Native Title Determination Application WAD6282/010 Yurriyangem Taam (WC2010/013) as Registered in the Federal Court on the 29<sup>th</sup> October 2010.
- Cadastral data sourced from sourced from Landgate, WA (June 2017).
- Rivers and Creeks based on Topographic vector data is © Commonwealth of Australia (Geoscience Australia) 2006.

### Reference datum

Geographical coordinates have been provided by the NNTT Geospatial Services and are referenced to the Geocentric Datum of Australia 1994 (GDA94), in decimal degrees and are based on the spatial reference data acquired from the various custodians at the time

### Use of Coordinates

Where coordinates are used within the description to represent cadastral or topographical boundaries or the intersection with such, they are intended as a guide only. As an outcome of the custodians of cadastral and topographic data continuously recalculating the geographic position of their data based on improved survey and data maintenance procedures, it is not possible to accurately define such a position other than by detailed ground survey.

Prepared by Geospatial Services, National Native Title Tribunal (7 November 2017)
