---

ILUA commences when the last party to the agreement executes and dates the agreement (Clause 4.1).  
ILUA terminates 20 years after the agreement is registered (Clause 4.2) unless otherwise terminated in writing by the parties (Clause 19).

### Statements of the kind mentioned in ss. 24EB(1) or 24EBA(1) or (4)

5.1 For the purposes of s.24EB(l)(b) and s.24EBA(l)(a)(ii) of the NTA, and Regulation 8(4) of the Native Title (Indigenous Land Use Agreements) Regulations 1999, the Native Title Parties and the Proponent each consent to the doing of, and the validating of, each of the Future Acts and agrees not to challenge their validity at any time in the future.

5.2 For the avoidance of doubt, the Native Title Parties and the Proponent each also agree that to the extent that any of the Future Acts has already taken place or take place prior to the registration of this Agreement under section s.24BI of the NTA it consents to such Future Act having being done, and its validation under the NTA.

1. In this Agreement, unless the contrary intention appears, the "Future Acts" means everything necessary or expedient to give effect to the Project, and any act necessary to enable the Project to proceed in accordance with all applicable laws, including without limitation, the approvals referred to in Recital D, the grant and exercise of the tenure referred to in Recital C, any supplementary or ancillary acts necessary to enable such acts to have full force and effect, and any works necessary or desirable to maintain or develop the structures and works comprising the Project.

A. The Proponent proposes to construct, install, operate, maintain, repair, replace and further develop a gas transmission pipeline from Port Campbell in Victoria to Torrens Island in South Australia "The Project". The Project will connect with existing gas transmission infrastructure in Victoria and South Australia owned and operated by other parties and will comprise the element described in Annexure A.

C. New tenure arrangements will need to be formalised prior to the Project proceeding. It is anticipated that these will comprise the grant on behalf of the State of Victoria, of a lease, easement, licence or other authority necessary or expedient to enable the Proponent (or its successors) to undertake the Project under the Pipelines Act 1967.
