Promoting Agreement (s 60AAA)

Is a free, PBC opt-in service that can help navigate native title complexities. NNTT can assist you to:

- ✓ identify PBC priority areas
- ✓ co-ordinate existing stakeholders
- ✓ clearly see your achievements
- ✓ identify new opportunities
- ✓ plan for the future
- ✓ map your pathway step-by-step

The six priority areas

Your Choice. Your Goals. Your Pathway.

The Priority Areas are:

Cultural Mapping: co-designed tools to bring history, cultural and governance information together.

Cultural Knowledge: help to organise, record and safely manage cultural stories and materials.

Dispute Resolution: support for clear structured discussions to resolve disputes.

Tenure: assistance to find and understand land tenure information.

Heritage: support to collate heritage information and protect it appropriately.

Agreements: tools to track responsibilities, obligations and actions in agreements.

Our Services:

Facilitation: helping people talk through issues, understand information, and make clear decisions in a culturally respectful way.

Product Development: creating practical tools like timelines, maps, summaries, and cultural mapping resources to support future planning.

Brokerage & Coordination: connecting PBCs with the right legal, heritage, governance, or technical support, without duplicating other agencies' work.

Alternative Dispute Resolution: consent-based mediation or facilitated processes to help resolve internal disputes affecting governance or decision-making.

The PBC is the driver. It's a safe, confidential co-design process to develop a personalised PBC Plan, step-by-step. Each step builds a stronger PBC:

Step 1:

Your PBC requests assistance.

Step 2:

Our Team coordinates a yarn with your PBC.

Step 3:

Together we co-design your PBC Plan.

Step 4:

We yarn at the check-point.

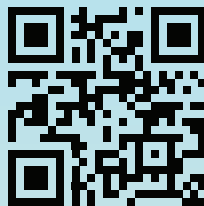

It helps that the Plan can change.
