

## **Attachment B** **Identification of Boundaries**

### **External boundary description**

The application area covers all the land and waters over the following:

- Lot 11 on RP898338 (Albany Rock)
- Lot 12 on RP898338 (Albany Rock)
- Lot 1 on JD1 (Hannibal Islet)
- Lots 1 and 2 on SP161893
- That part of Lot 409 on NPW602 subject to Eborac Island.
- That part of Lot 4 on SP269702 (Cairncross Islets) subject to former Portion 1 on Plan SO10
- Lot 1 (Boydong Island), Lot 2 (Wallace Islet), Lot 3 (Cholmondeley Islet), Lot 5 (Aplin Islet), Lot 6 (Milman Islet) and Lot 7 (Sinclair Islet) on Plan SP269702
- Lot 18 on SP120091

The area within a radius of 150 metres from the respective centre points of each Commonwealth asset as follows:

- Harrington Reef Unlit Beacon; approximate Longitude 142.719600° East, Latitude 10.820483° South (WGS84).
- Shortland Reef Unlit Beacon; approximate Longitude 142.766350° East, Latitude 10.896850° South (WGS84).

The area within a radius of 650 metres from the respective centre points of each Commonwealth asset as follows:

- Wyborn Reef Light; approximate Longitude 142.775050° East, Latitude 10.819167° South (WGS84).

For the avoidance of any doubt, the application area excludes any area subject to:

- Native title determination QUD27/2019, QUD26/2019, QUD10/2019, QUD24/2019, QUD114/2017, QUD115/2017, QUD227/2022 Torres Strait Regional Sea Claim (QCD2022/013) as determined by the Federal Court of Australia on 30 November 2022.

### **Note**

#### **Data Reference and source**

- Application boundary compiled by National Native Title Tribunal based on information or instructions provided by the applicants.

- Cadastre data sourced from Department of Natural Resources and Mines, Manufacturing, and Regional and Rural Development (Qld) March 2025.
- Commonwealth asset centre point details provided by the applicants. The Commonwealth have advised that AMSA maintains the coordinates in WGS84 for reasons relating to the international nature of shipping and navigation services.

### **Reference datum**

Geographical coordinates are referenced to the Geocentric Datum of Australia 2020 (GDA2020), in decimal degrees and are based on the spatial reference data acquired from the various custodians at the time.

### **Use of Coordinates**

Where coordinates are used within the description to represent cadastral or topographical boundaries or the intersection with such, they are intended as a guide only. As an outcome of the custodians of cadastral and topographic data continuously recalculating the geographic position of their data based on improved survey and data maintenance procedures, it is not possible to accurately define such a position other than by detailed ground survey.

Prepared by Geospatial Services, National Native Title Tribunal (20 May 2025)
