

SCHEDULE 3 – EXTERNAL BOUNDARY

The area of land and waters commencing:

at intersection of the western boundary of the Upper Burdekin River sub catchment area (Sub Number 1201) and the north western boundary of Lot 575 on Plan PH219 and extending generally northerly along the western boundary of that sub catchment area to its intersection with the northern boundary of the Gregory Developmental Road reserve, also being the southern boundary of the external boundary of the native title determination QUD85/2005 Gugu Badhun People #2 (QCD2012/002); then generally easterly and generally south easterly along the northern boundary of the Gregory Developmental Road reserve to its intersection with the centreline of the Clarke River; then generally south westerly along the centreline of that river to its intersection with the northern boundary of the external boundary of the native title determination QUD80/2005 Gudjala People (QCD2014/006), being a line joining Longitude 145.464464° East, Latitude 19.397699° South and Longitude 145.238141° East, Latitude 19.315069° South; then generally north westerly and generally westerly along the northern external boundary of that determination to its intersection with the western boundary of the Upper Burdekin River sub catchment area, then generally northerly along the western boundary of that sub catchment area back to the commencement point.

This application specifically excludes all land and waters subject to:

- Native title determination QUD85/2005 Gugu Badhun People #2 (QCD2012/002)
- Native title determination QUD80/2005 Gudjala People (QCD2014/006)

Note

Data Reference and source

- Application boundary compiled by National Native Title Tribunal (NNTT) based on information or instructions provided by the applicants.
- Native title determination QUD85/2005 Gugu Badhun People #2 (QCD2012/002) as determined by the Federal Court on 1 August 2012.
- Native title determination QUD80/2005 Gudjala People (QCD2014/006) as determined by the Federal Court on 18 March 2014.

Reference datum

Geographical coordinates have been provided by the NNTT Geospatial Services and are referenced to the Geocentric Datum of Australia 1994 (GDA94), in decimal degrees and are based on the spatial reference data acquired from the various custodians at the time.

Use of Coordinates

Where coordinates are used within the description to represent cadastral or topographical boundaries or the intersection with such, they are intended as a guide only. As an outcome of the custodians of cadastral and topographic data continuously recalculating the geographic position of their data based on improved survey and data maintenance procedures, it is not possible to accurately define such a position other than by detailed ground survey.

Prepared by Geospatial Services, National Native Title Tribunal (14 October 2019).
