

SCHEDULE 1

DETERMINATION AREA

The Determination Area, generally shown as bordered in blue on the map at Schedule Two, comprises all land and waters bounded by the following description:

All those lands and waters commencing at a point on the southern boundary of Portion A of Native Title Determination WAD6061/1998 Dambimangari (WCD2011/002) at Longitude 123.918226 East being a point on the boundary of Native Title Determination WAD33/2019 Warrwa Combined Part A (WCD2020/010) and extending southerly, southeasterly, easterly, northeasterly, generally northwesterly and again northeasterly along the boundaries of that native title determination through the following coordinate positions:

LATITUDE	LONGITUDE
16.968127	123.918551
17.004533	123.933542
17.004533	123.952459
16.984188	123.967449
16.973124	123.956385
16.958133	123.944963
16.950995	123.972089

Then northwesterly to the southern boundary of Portion A of Native Title Determination WAD6061/1998 Dambimangari (WCD2011/002) at Longitude 123.955215 East; Then westerly along the boundary of that native title determination back to the commencement point.

Note: Geographic Coordinates provided in Decimal Degrees.

Cadastral boundaries sourced from Landgate's Spatial Cadastral Database dated 28 January 2025.

For the avoidance of doubt the Determination Area excludes any land and waters the subject of:

- Native Title Determination WAD6061/1998 Dambimangari (WCD2011/002) as determined in the Federal Court on 26 May 2011.
- Native Title Determination WAD33/2019 Warrwa Combined Part A (WCD2020/010) as determined in the Federal Court on 1 December 2020.

Datum: **Geocentric Datum of Australia 2020 (GDA2020)**
Prepared by: **Geospatial (Landgate) 13 March 2025**

Use of Coordinates:

Where coordinates are used within the description to represent cadastral or topographical boundaries or the intersection with such, they are intended as a guide only. As an outcome to the custodians of cadastral and topographic data continuously recalculating the geographic position of their data based on improved survey and data maintenance procedures, it is not possible to accurately define such a position other than by detailed ground survey.
