## Note

### Data Reference and source

- Application boundary compiled by National Native Title Tribunal (NNTT) based on information and instructions provided by the applicants.
- Non-Freehold data sourced from Landgate (WA) Spatial Cadastral Database (SCDB), February 2024.

### Reference datum

Geographical coordinates are referenced to the Geocentric Datum of Australia 2020 (GDA2020), in decimal degrees and are based on the spatial reference data acquired from the various custodians at the time.

### Use of Coordinates

Where coordinates are used within the description to represent cadastral or topographical boundaries or the intersection with such, they are intended as a guide only. As an outcome of the custodians of cadastral and topographic data continuously recalculating the geographic position of their data based on improved survey and data maintenance procedures, it is not possible to accurately define such a position other than by detailed ground survey.
